

Amazon Tupana lodge

178 km south of Manaus in middle of the biological reserve of the Rio Tupana an ecological paradise, an area which is very rich in fauna and flora, where we can find a large variety in water birds, mammals, reptiles, and during specific times of the year also a excellent place for sport fishing. .

The trip to the hotel begins with an adventure passing by the meeting of the waters where Rio Negro and Solimões - the two major rivers of the Amazon meet to form the mighty Amazon River, followed by a travel on road for 178km on the BR 319 that connects to the famous Transamazônica (the first road that connected the state of Amazonas to the rest of the country, but unfortunately today is partly destroyed). During the trip to the Amazon Tupana Lodge you will be able to view a very rich scenery with large quantities of Vitoria Amazonia and birds.

The Amazon Tupana Lodge is a small jungle hotel, however with a very charming atmosphere. The rustic architecture of the lodge has been carefully planned to preserve nature and specially to adapt itself the environment, but still with the purpose to offer comfort during your stay in the Amazonian rain forest. The lodge offers the following facilities: reception, laundry, restaurant service offering local as well as international dishes, bar service, electric energy 110vts generated by the own generator.

Transportation

The transportation interacts with vans and speed boats all comfortable and with all security equipment and operates as follows:

PART 1: 07:00h Depart from your hotel in Manaus to the port of the Ceasa (20 min)

PART 2: Depart from the Port of Ceasa to the Vila do Careiro in speed boat passing by the meeting of the waters (20 min)

PART 3: Vila do Careiro to Rio Tupana. During this part we will have the opportunity to photograph Vitoria Amazonica (2:30h – highway BR319).

PART 4: Rio Tupana to the Amazon Tupana Lodge. (20 min).

PROGRAMS
